Wolverine RMAX2 1000 XT-R

Covert Green

\$22,499 MSRP* \$800 Destination Charge*

TOP FEATURES

1. New, Powerful 999cc Parallel Twin Engine

The Wolverine® RMAX™2 1000 XT-R delivers class-leading power and smooth performance, thanks to its new, powerful 999cc, DOHC, eight-valve, parallel twin engine, featuring legendary Yamaha durability.

2. An Imposing Figure with Next Generation Style

The Wolverine RMAX2 1000 XT-R wraps next-level capability with an imposing stance, highlighted by aggressive front end styling and rugged tires. The all-new stealthy front LED headlights and "evil eye" marker lights give this new generation a distinctive look on the trail, and the LED taillight, brake light, and reverse light provide added visibility. With its eye-catching colors, the Wolverine RMAX2 1000 XT-R's appearance is only rivaled by its own trail-dominating performance.

3. Advanced, Comfort-Focused Suspension

The all-new advanced and heavy-duty suspension is designed to provide maximum articulation in low speed situations, a balanced ride feeling when trail riding, and the highest level of bottoming resistance with a higher speed damping feel when maneuvering the Wolverine RMAX2 1000 XT-R. The wide-arc A-arms paired with the FOX® 2.0 QS3 shocks deliver 14.2-inches of travel up front and an amazing 16.9-inches of travel in the rear. The new FOX® 2.0 QS3 shocks can be easily switched, without tools, between three custom positions to enhance comfort during relaxed driving, increase damping for normal trail riding and maximize damping during sport driving.

4. 3 D-Modes, 1 Machine

The Yamaha Chip Controlled Throttle (YCC-T) optimizes power delivery for a variety of situations through an all-new three-position D-Mode. The Sport Mode is ideal for wide open trails, sand, and spirited driving. Trail Mode is perfect for a fun, relaxed ride or taking on the trails with smooth acceleration and linear throttle response. For those adventure seekers, the Crawl Mode can take on slow technical situations, like rock crawling, with ease. In combination with Yamaha's Ultramatic® and On-Command systems, the Wolverine RMAX2 1000 XT-R delivers the perfect amount of engine braking by operating the throttle in accordance to the user's selected D-Mode setting.

FEATURES & BENEFITS

TOP FEATURES - CONT.

5. Interior Lighting

For accessibility in low light conditions, the new Wolverine RMAX2 1000 XT-R features an interior light package to easily navigate controls. The blue LED lighted switches, floor lights, and console lighting complement the automotive-inspired cockpit and are color-matched to the new blue backlit meter for a high-quality feel and premium look.

6. Integrated Adventure Pro

Explore further with the Yamaha Adventure Pro integrated directly in the dash with removable and lockable housing. This advanced adventure tool gives Yamaha owners added capability and confidence and the opportunity to share their experiences with friends and family. The Yamaha Adventure Pro comes with GPS mapping and navigation, online adventure planning, 115,000+ pre-loaded trails and waypoints, the Yamaha-exclusive Timing Mode, social sharing functionality, vehicle integration and customization, and more.

7. Tackle Extreme Terrain

The all-new three-position D-Mode, combined with Yamaha's Ultramatic® and On-Command systems, deliver the perfect balance of engine braking and power delivery for maximum terrainability. The Wolverine RMAX2 1000 XT-R frame is strengthened for the most solid and durable feel yet, as the chassis was designed with the best suspension in mind and provides extra rigidity for extreme terrain. The wheel base had been optimized to provide a balanced feel and provides the best contact-to-ground feel for optimum handling in any terrain.

8. XT-R Package

The Wolverine RMAX2 1000 XT-R™ leads the way through extreme terrain with Maxxis® Carnivore® tires, heavy-duty WARN® winch, advanced suspension and a stylish paint and graphics package.

9. Versatile Cargo Bed

The Wolverine RMAX2 1000 XT-R features a tilting cargo bed to simplify hauling duties. Built with hydraulic assistance and a robust latch system, the bed transports up to 600 pounds with multiple steel tie-down points to secure cargo or attach accessories. Add in a full 2,000 pounds of towing capacity through a standard 2-inch receiver, and the Wolverine RMAX2 1000 XT-R is ready to get to work when you are.

CAPABILITY

New, Powerful 999cc Parallel Twin Engine

The Wolverine RMAX2 1000 XT-R delivers class-leading power and smooth performance, thanks to its new, powerful 999cc, DOHC, eight-valve, parallel twin engine, featuring legendary Yamaha durability.

Terrain-Tackling Chassis

For maximum terrainability, the Wolverine RMAX2 1000 XT-R features a solid and durable frame that is designed to provide superior off-road confidence. Along with its class-leading suspension, 30-inch tires and an optimized wheel base provide a balanced contact-to-ground feel in extreme terrain.

Terrain-Focused Tires

The new Wolverine RMAX2 1000 XT-R comes with 30-inch Maxxis® Carnivore® tires and 14-inch aluminum wheels in a "square setup", allowing the ability to carry a single spare. These industry-popular, high-quality tires provide precise steering character, comfortable yet durable sidewall feel and intermediate terrain-focused tread pattern for traction in a variety of terrain.

Advanced, Comfort-Focused Suspension

The all-new advanced and heavy-duty suspension is designed to provide maximum articulation in low speed situations, a balanced ride feeling when trail riding, and the highest level of bottoming resistance with a higher speed damping feel when maneuvering the Wolverine RMAX2 1000 XT-R. The wide-arc A-arms paired with the FOX® 2.0 QS3 shocks deliver 14.2-inches of travel up front and an amazing 16.9-inches of travel in the rear. The new FOX® 2.0 QS3 shocks can be easily switched, without tools, between three custom positions to enhance comfort during relaxed driving, increase damping for normal trail riding and maximize damping during sport driving.

Versatile Cargo Bed

The Wolverine RMAX2 1000 XT-R features a tilting cargo bed to simplify hauling duties. Built with hydraulic assistance and a robust latch system, the bed transports up to 600 pounds with multiple steel tie-down points to secure cargo or attach accessories. Add in a full 2,000 pounds of towing capacity through a standard 2-inch receiver, and the Wolverine RMAX2 1000 XT-R is ready to get to work when you are.

COMFORT

All-New Heavy Duty Three-Piece Door Design

A new three piece, easy-to-open door design features a steel inner structure, a molded outer door skin and a molded inner door panel for a quality feel. The robust inner door handles keep the mud out to work smoothly, even in the harshest of conditions. The doors feature integrated snap out speaker panels for easier upgradability, and soft touchpoints for an automotive feel so occupants are kept comfortable for all-day driving. To ease entering and exiting the vehicle, the front doors feature an enlarged opening, 63% wider than previous Wolverine models. Further increasing comfort, the front shoulder bolster shapes were optimized to expand the upper body opening to maintain a great, secure-feeling on the trail for riders big and small.

Comfortable, Secure Seats

An exceptional seating position provides a planted feel and reduces fatigue, which is essential for occupants to enjoy the driving experience. The new Wolverine RMAX2 1000 XT-R keeps occupants comfortable and secure with its wide bolstering and additional leg room for larger occupants. The driver's seat has increased adjustability compared to previous Wolverine models, combined with a new no-tool, easy-to-adjust, six-position seat belt for added comfort.

Max Comfort for Driver and Passengers

Driver and passenger comfort features include a tilt steering wheel with 17 degrees of adjustment, and a new adjustable passenger handhold with a robust design that won't get clogged with mud or dirt. Furthering driver comfort, the new throttle and brake pedals have been optimized for comfort, while a new strategically-designed brake master cylinder cover helps keep the mud and water off the driver's feet.

Automotive-Style Soft Touchpoints

Featuring the most automotive-style driver and passenger soft touchpoints in its class, the Wolverine RMAX2 1000 XT-R provides a more relaxed experience even over rough terrain. The steering wheel and passenger handhold have the best shape and soft-touch in the market while providing a quality feel way beyond the competitors' hard plastic. Additional comfort points have been strategically placed in locations where knees and arms frequently contact interior components. Chrome inlays are also embedded in the shifter and hand brake for added styling.

2021

Wolverine RMAX2 1000 XT-R

Interior Lighting

For accessibility in low light conditions, the new Wolverine RMAX2 1000 XT-R features an interior light package to easily navigate controls. The blue LED lighted switches, floor lights, and console lighting complement the automotive-inspired cockpit and are color-matched to the new blue backlit meter for a high-quality feel and premium look.

Advanced, Comfort-Focused Suspension

The all-new advanced and heavy-duty suspension is designed to provide maximum articulation in low speed situations, a balanced ride feeling when trail riding, and a high level of bottoming resistance with a higher speed damping feel when maneuvering the Wolverine RMAX2 1000 XT-R. The wide-arc A-arms paired with the FOX® 2.0 QS3 shocks deliver 14.2-inches of travel up front and an amazing 16.9-inches of travel in the rear. The new FOX® 2.0 QS3 shocks can be easily switched, without tools, between three custom positions to enhance comfort during relaxed driving, increase damping for normal trail riding and maximize damping during sport driving.

Protective Suntop

For extra comfort and protection, the suntop is engineered to keep the sun and other elements off the occupants as much as possible, while offering the ultimate in accessory incorporation with integrated sealing surfaces and mounting points for a variety of Yamaha Genuine Accessories.

Maximum Storage

Large storage optimized to provide protection from the elements, the Wolverine RMAX2 1000 XT-R features a sealed 2.7L center console, a 5.5L sealed glove box, and center console cubbies. Both occupants can also quickly access their belongings with driver and passenger storage shelves containing secure rubber mats to keep items in place and two easy-to-reach cup holders.

New Machine, New Look

With premium automotive-style painted bodywork, XT-R graphics, and with a color-matched interior, featuring cut-and-sew seats, the Wolverine RMAX2 1000 XT-R is sure to stand out from the crowd.

Automotive-Inspired Cockpit

From charging your electronics with a powered USB port to seeing what's behind with the easily adjustable center-mount mirror, ride in comfort and take on the terrain as long as you'd like.

Easy-to-Use Shift and Parking Levers

For extra comfort, the Wolverine RMAX2 1000 XT-R features a light-effort shift lever and natural-feeling parking brake lever, both of which designed with color-matching accents and chrome inlays for the ultimate finish.

CONFIDENCE

The Toughest Transmission

The Proven Off-Road technology of Yamaha's Ultramatic® system is unmatched in the industry. Backed by the industry's only 10-year belt warranty, the CVT system utilizes a new, centrifugal wet clutch purpose-built to withstand the power from the new 999cc engine, and a constant tension belt system for tackling obstacles in high rev range without fear of damaging the belt. When more torque is needed, the low gear is perfect for challenging conditions. The robust CVT system means less time switching gears and more fun taking on any terrain.

Premium Front Bumper

A new multi-piece front bumper gives the Wolverine RMAX2 1000 XT-R a stylish new look. With two welded steel trailering tie-down points, factory-installed WARN® VRX 4500-pound winch, accessory brush guard, and accessory pod light-mounting brackets, you'll confidently be able to take on the toughest terrain.

Excellent Braking System

The one-way sprag clutch offers natural and predictable engine braking at all speeds. Maximizing traction and reducing wear on the vehicle's brake system helps descend hills with confidence. The all-wheel engine braking combined with the new Wolverine RMAX2 1000 XT-R brake calipers and rotors results in excellent feel and feedback for confidence-inspiring stopping power. With 255mm rotors and 32mm dual piston calipers up front and 244.5mm rotors and 27mm dual piston calipers in the rear, the perfectly-matched master cylinder and steel braided brake lines bring the Wolverine RMAX2 1000 XT-R to a stop.

Stealthy LED Lights

New stealthy, advanced LED headlights provide a wide beam pattern to provide more confidence-inspiring nighttime driving and light the way while you REALize Your Adventure in low-light situations. The 7.6W LED mono focus low beam keeps the trail visible in normal conditions while the 15.2W LED reflector-type high beam is used in darker conditions. New LED marker lights showcase the Wolverine RMAX2 1000 XT-R's unique, sleek style. The integrated LED taillight, brake light and reverse light keep you visible on the trail and enhances visibility when backing up.

Proven Durability

With large rigid components to maintain Yamaha's proven durability, the Wolverine RMAX2 1000 XT-R provides the most confidence-inspiring ownership experience. The Wolverine RMAX2 1000 XT-R boasts specifically-designed front differential and rear gear case with durable surface treatments and Carbon Steel construction, large 62mm front and 72mm rear DAC (Double Angular Contact) wheel bearings, forged sway bar links, wide pitch A-arms and single stamped A-arms, and large vehicle-specific ball joints, just to name a few. And the most trusted transmission in the industry is backed by a Yamaha-exclusive 10-year belt warranty.

Integrated Adventure Pro

Explore further with the Yamaha Adventure Pro integrated directly in the dash with removable and lockable housing. This advanced adventure tool gives Yamaha owners added capability and confidence and the opportunity to share their experiences with friends and family. The Yamaha Adventure Pro comes with GPS mapping and navigation, online adventure planning, 115,000+ pre-loaded trails and waypoints, the Yamaha-exclusive Timing Mode, social sharing functionality, vehicle integration and customization, and more.

Built Real World Tough®, Assembled in the USA

Like all of Yamaha's Side-by-Sides and full-size ATVs, the Wolverine RMAX2 1000 XT-R is assembled with pride in the USA at Yamaha's state-of-the-art factory in Newnan, Georgia.
